

General Description **UN-502AL** is manufactured by United Nanotech Products Ltd. and is described chemically as a combination of aqueous alkaline suspension of colloidal silica and polymers. It is basic in nature.

Typical Properties **UN-502AL** has the following typical properties:

Property	Analysis
Appearance	White suspension
Specific gravity	1.1
pH (1:10 Solution)	10.5 - 11
Odour	Nil
Active component	~ 20 %
Viscosity(25' c)	1.65
Particle Size	~100 – 200 nm

Applications **UN-502AL** should be added under good stirring. Good homogeneous distribution must be observed.

Storage Conditions Storage conditions should also be in conformance with applicable legal, fire and insurance regulations.

Shelf Life Under correct storage conditions the normal shelf life for this product is 12 months.

Safety Data Sheet MSDS is available upon request.
